### Qualifications

I was a delegate to General Conference 2000 and Jurisdictional Conference in 2000 & 2004. I have seen the sausage made and the theatrics staged.

I am a fiscal conservative and believe the bloated General Church budget must be drastically reduced.

As a non-practicing attorney, I understand legislative language and how it will be interpreted by those who will either implement, challenge or ignore it.

I understand the significance of Judicial Council and University Senate elections.

### Three Most Critical Issues

1. Cutting the general church budget drastically, eliminating unnecessary boards, agencies, commissions and studies and eliminating the quadrennial budget-setting process (a historical relic that is ridiculous in the 21<sup>st</sup> Century).
2. Any change in the guaranteed annual appointment for clergy must include checks and balances to guard against abuse of Episcopal authority such as removing lifetime tenure for bishops.
3. Will we structure the church to limit Africa's influence on the America?
