

**Asbury Towers Retirement Community**  
102 W. Poplar St. Greencastle, In 46135

In the tradition of Asbury Towers which spans more than (45) forty five years, we have taken the time to pride ourselves in doing things right. Retirement living at a long term care provider is a choice. We want to make sure that when you chose us you have the confidence in knowing you have made the best choice. At Asbury Towers we take the time to personalize each relationship one individual at a time. We focus on what we are doing right and learn and grow from the things we find to be a challenge. The challenges make for opportunities and opportunities help us to grow. As this report is being written our census continues to grow we are presently at (98%) ninety eight percent in our comprehensive health center which is a strong positive number and we continue to watch our residential and assisted living occupancy increase.

We are grateful for the ministry and the combined strong relationship that we have with our sister organizations, Franklin United Methodist Community and Glenburn Home. It has truly been a blessing to serve alongside these fine institutions. The leadership and commitment to excellence goes above and beyond expectation.

While serving the ministry we have found the time to renovate numerous apartments and garden homes. The facility has taken on a new look which the residents like the new changes and hope that the changes continue.

In 2009 we were able to provide \$25,234.90 in benevolence care. We are grateful for the offering we have received in the previous years and will continue to be supportive of the conference.

We were pleased to have the West District, Indiana United Methodist Conference, consider us for a location to conduct business and we were happy we were able to accommodate with the space they needed. The location at 118 W. Seminary St. in Greencastle sits on Asbury's campus and it is a beautiful location. Having the opportunity to have the conference work from our location is a blessing in itself.

Once again thanks for all the support the fellowship and guidance that you have provided over the years.

Rod Jackson  
Executive Director  
Asbury Towers Retirement Community
