This program really helped my understanding of the use of media in worship. I knew absolutely nothing before but feel more competent now. I think I will be able to "help" our media crew after having completed this program. Thanks

I really enjoyed the live sessions because it gave me opportunity to interact with the instructor and other students, as well as ask questions as we were going through stuff. What is going to help me most going forward are all the resources, websites, info. that John made available to us as students! I have so many bookmarks on articles, sites, etc that I want to share with my secretary, powerpoint person, and worship team! From that standpoint---the resources alone are worth the price of the course! I also liked that John was so personable, easy to understand, and willing to help us process the information we were receiving! Well done!

Perhaps I missed it, but I did not find any advanced notification of when the collaborative sessions would be, other than in that day's assignment. If I had known ahead of time, I would have been able to adjust my schedule. Great course and many helpful links. Money well spent, and this will help me train my team of volunteers. Thanks, John.

It would have been nice to have the final project assignment by Wednesday, especially since the course ended at the beginning of a holiday weekend.

I thought this was a very worthwhile workshop. I really enjoyed the section on EasyWorship. I have seen the program, but never used it. This was very helpful. I even took my computer to the church and used the projector in our sanctuary to see if all parts would work and how they would look. In the future, I may ask my church to purchase this software for our use. It was very interesting to read the discussion answers that everyone posted. Many insights here as to what was being used (or if used at all) for projection. I also read an article on use of the sound board which I found very helpful as I also run our soundboard for worship services.

In addition - it was nice to be able to take a class like this from home and not have to go out of town for an Advanced Lay Speaker Class. The chat sessions were good as we ask questions, etc.

All in all, I thought this was a very good workshop and the instructor was good and very helpful. Thanks for offering this class.
